The logo for iSolar Energy Auditing features a stylized green sun icon with three rays to the left of the text. The word "iSolar" is in a bold, green, sans-serif font, with a trademark symbol. Below it, "Energy Auditing" is written in a blue, italicized, sans-serif font.

iSolar™ Energy Auditing

Our consultants are experienced in carrying out energy audits for schools throughout Victoria. Our Energy audits provide schools upfront costs and payback periods for energy saving opportunities. While some of these recommendations will have quick pay back for business, the majority will work to provide long term cost savings and reduce risk.

Our auditing services can that can be integrated with the Building and Education Revolution Programs.

Specifically we can:

- * Assist your school to reduce its operating costs, whilst at the same time have a significant positive environmental impact.
- * We can prepare a review of existing and proposed buildings, systems, equipment and practices in your school
- * Accurately estimate an energy map and then identify areas for improved efficiency and cost saving.
- * Perform ongoing monitoring of clients greenhouse gas and other emissions.

Energy savings can often be immediate and the benefit to your school community can really make a difference for a bright future!
